

TPATH in September

It's been an amazing month for TPATHers. All in all we're responsible for 11 academic articles and 1 book. The latter, [TERF Wars: Feminism and the Fight for Transgender Futures](#), collects the most recent issue of The Sociological Review and includes a whopping 6 articles by TPATH members!

TPATH is busy planning our first conference, tentatively scheduled for February 2021 (to be held online). Check out our [Call for Volunteers](#) for this event. Close readers will note that a new section, [Calls for Research Participants](#), has been added to the newsletter. All studies are led by a TPATH member and actively seeking participants. Check out the [News section](#) for global articles on transgender health. This month there are very interesting articles on the successful fight to [end intersex surgeries](#) at Lurie Children's Hospital in Chicago and on [problems](#) with modern medicine's treatment of transgender patients. The latter resulted in an [academic article](#) on a transgender man's experience with kidney failure. Finally, the APA is requesting [feedback](#) on the upcoming revision of their *Guidelines for Psychological Practice with Transgender and Gender Nonconforming People*.

As always, [let us know](#) if you see any errors, or with news, job postings, publications, and anything else you'd like to see here. You can also find job

postings, publications, and resources in the [member resources](#) section of the website.
