

## TPATH in February

In the past month we have collectively published two academic articles and created one report and one resource. TPATH is also well into planning our first ever conference (to be held virtually), tentatively scheduled for Jul 31-Aug 1, 2021. We hope to open the call for proposals on March 1st, 2021. Please check out the [website](#) for information on the Steering Committee and the conference theme. In the meantime please [contact](#) us if you are interested in volunteering to review abstracts and other submissions, for translation, or to act as a session moderator.

The [News section](#) this month contains a number of other articles on global transgender healthcare. There are specifically some very interesting pieces on transgender health in [The Philippines](#), [Nepal](#), and [Singapore](#). **Simon Strikeback's** [request](#) for people to join the Queer Parents Discussion Writing Group is also still open.

As always, [let us know](#) if you see any errors, or with news, job postings, publications, and anything else you'd like to see here or on the [member resources](#) section of the website. Don't forget to join our [Listserv](#) if you'd like to get this newsletter direct to your inbox.

The purpose of this research is to explore the mental health impact of COVID-19 and current climate of racial justice protests and outrage. Your participation in this study will take approximately 15-25 minutes. If you decide to participate in this study, you will be asked to answer questions about yourself and your experiences in a confidential survey. Questions will inquire about your well-being, various identities, and experiences during COVID-19 and the current climate of racial justice protests.
