TPATH in March

We’re proud to announce TPATH’s first ever conference, entitled *Converging Crises: Transgender Health, Rights, and Activism in 2021*, set to take place from July 31st–August 1st. Registration is now open and the call for abstracts will be open until April 15, 2021. Please check out our website for information on the conference and our conference Steering Committee. Submissions will be accepted in French, Spanish, and English and interpretation provided during the conference. In the meantime please contact us if you are interested in volunteering to review abstracts and other submissions, for translation, or to act as a session moderator.

The News section this month has several interesting articles on global transgender healthcare, including one from *The Calgary Journal* on Adebayo Katiiti. Several new positions are posted in the Career Opportunities section, including a position working on the creation of a Canadian (British Columbia) bad date reporting system and a call for tenders to create a report on gender-sensitive health services for the European Public Service Union. The Williams Institute at UCLA has also announced an LGBTQ and Racial Justice Small Grants program.

As always, let us know if you see any errors, or with news, job postings, publications, and anything else you'd like to see here or on the member resources section of the website. Don’t forget to join our Listserv if you’d like to get this newsletter sent directly to your inbox.

Calls for Research Participants
All studies are led by a TPATH member and actively seeking participants.

**University of Massachusetts, Boston**
The purpose of this research is to explore the mental health impact of COVID–19 and current climate of racial justice protests and outrage. Your participation in this study will take approximately 15–25 minutes. If you decide to participate in this study, you will be asked to answer questions about yourself and your experiences in a confidential survey. Questions will inquire about your well-being, various identities, and experiences during COVID–19 and the current climate of racial justice protests.

**Brandeis University**
Are you a trans / nonbinary adult (age 18+)? Do you live in the US or Canada? Has a professional refused to provide you with healthcare because of your gender? We want to hear from you! More information available on Facebook.
