TPATH in October

It’s been another great month for TPATHers (I’d stop saying that, but it keeps being true). All in all we received 3 awards, 4 articles, 1 book, 3 talks, and launched 1 resource for nurses.

TPATH is busy planning our first conference, tentatively scheduled for Spring 2021 (to be held online). Please submit your interest in being on the conference Steering Committee and find out more in this newsletter and on our info sheet (forms available in English, Español, and Français).

Check out the News section for global articles on transgender health and issues. This month there are very interesting articles about halts on gender affirming surgery and trans mutual aid during COVID, detransition, and TPATH member Alex Abramovich’s recent research on rates of chronic illness among transgender people.

As always, let us know if you see any errors, or with news, job postings, publications, and anything else you’d like to see here. You can also find job postings, publications, and resources in the member resources section of the website.
